Professional Profile

Junior web developer with solid training in both frontend and backend development, using technologies like Angular, React, and Node.js. Skilled in responsive design, SQL database management, and version control with Git. Known for being a fast learner, team player, and problem solver, highly motivated to apply my knowledge in real-world projects and continue growing professionally.

Education

Higher Technician in Full Stack Web Development

Universidad Creativa – Costa Rica

2024 - 2025

Experience

Full Stack Course Management System

- Built a full stack web application with full CRUD functionality.
- Developed the frontend using React and Redux for efficient state management.
- Designed the backend with Node.js and Express, applying a microservices-oriented architecture.
- Set up the database in SQL Server using stored procedures.
- Connected all components via RESTful APIs.
- github.com/Elitaxh06/sistema-cursos-fullstack

E-commerce Website

- Developed the frontend with React and Tailwind for a responsive platform.
 - Implemented a product catalog for vehicle parts, accessories, and tools.
 - The site has active clients making real purchases.
 - Added shopping functionality and a contact form.
 - Used Git and GitHub for version control throughout development.
-
